WHY THE NEW

Is Better Than Any Other: It costs more than an ordinary Rake tooth, but is worth ten times the cost. It will run over trash lying on the ground, and It will rake Barley, Rye, Oats, Hungarian and Millit free from dirt. It is so easily managed that a boy that can drive a horse can use it as well as a strong man. It can be locked down to make very large windrows, or bunch them up.

It is very easy to keep up the teeth after going It packs the windrow, leaving it in good shape rolling up or pitching It has no springs to get out of order. It will give better satisfaction than any other ake sold in this country.

It can be returned at our expense, if it does not prove as above, by any one that will use it long enough to understand it.

These Rakes are sold with

in the country, we will pay the freight and order away. H. A. Slayton & Co.

It will rake green grass perfectly, without trouble, even if the grass is heavy. It has an oscillating cleaner that keeps the hay from rolling and working out at both ends, and into the wheels. It will rake "scatterings" perfectly, because the cleaner keeps the hay from rolling, and the sled-runner teeth from jumping.
